Re: WKCI (AM), Waynesboro, Virginia
Facility Identification Number: 70862
CC Licenses, LLC
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed July 26, 2007, on behalf of CC Licenses, LLC ("CCL"). CCL requests extension of the special temporary authority ("STA") granted on April 27, 2007, to operate Station WKCI with parameters at variance from licensed values and/or reduced power while maintaining monitor points within licensed limits.¹ In support of the request, CCL provides a report of its progress toward determining the cause of the station's sampling system malfunction. CCL states that the exact cause has not yet been determined, and that it is waiting for tower crews to return to continue the inspection of the towers.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

¹ WKCI is licensed for operation on 970 kHz with 5 kilowatts daytime and 1 kilowatt nighttime, employing different directional antenna patterns daytime and nighttime (DA-2-U).

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WKCI may continue to operate with parameters at variance and/or reduced power while maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. CCL must notify the Commission when licensed operation is restored.² CCL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **July 11, 2008**.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles N. Miller", written in a cursive style.
